From Transform Trade – Every year an estimated **40 million Christmas crackers end up in landfill** in the UK alone. 99% of people ditch their cracker gift on the first day. And while ethical alternatives exist, they cost a lot and achieve only a little for that money.
Today we're launching Crackerless Christmas 2026 because we want to help. It's a beautiful alternative to crackers, designed to prove that more joy can come from less waste.
Less landfill, more fun with the family. If you're not doing Crackerless Christmas this year... you're missing out. Check it out at Crackerless Christmas – Transform Trade
How it works You make a £25 donation to support producers around the world with Transform Trade, and we send you a **Crackerless Christmas celebration pack**.
I can order these if anyone is interested, and can also source 'Fairtrade' Divine milk chocolate or 70% dark chocolate Advent Calendars at £7 each
